# ARTIST MEDIAS

## SIMONE KOSTIAN | HAIR & MAKE-UP

Already at a young age Simone was fascinated by colours and how to use them. Through her passion for the art of make up + hairstyling she was challenged to study at the international school for make up artists in Munich.

Since her graduation in 1998 she works for named photographers, films, artists, fashion shows, editorials, catalogue and commercials.

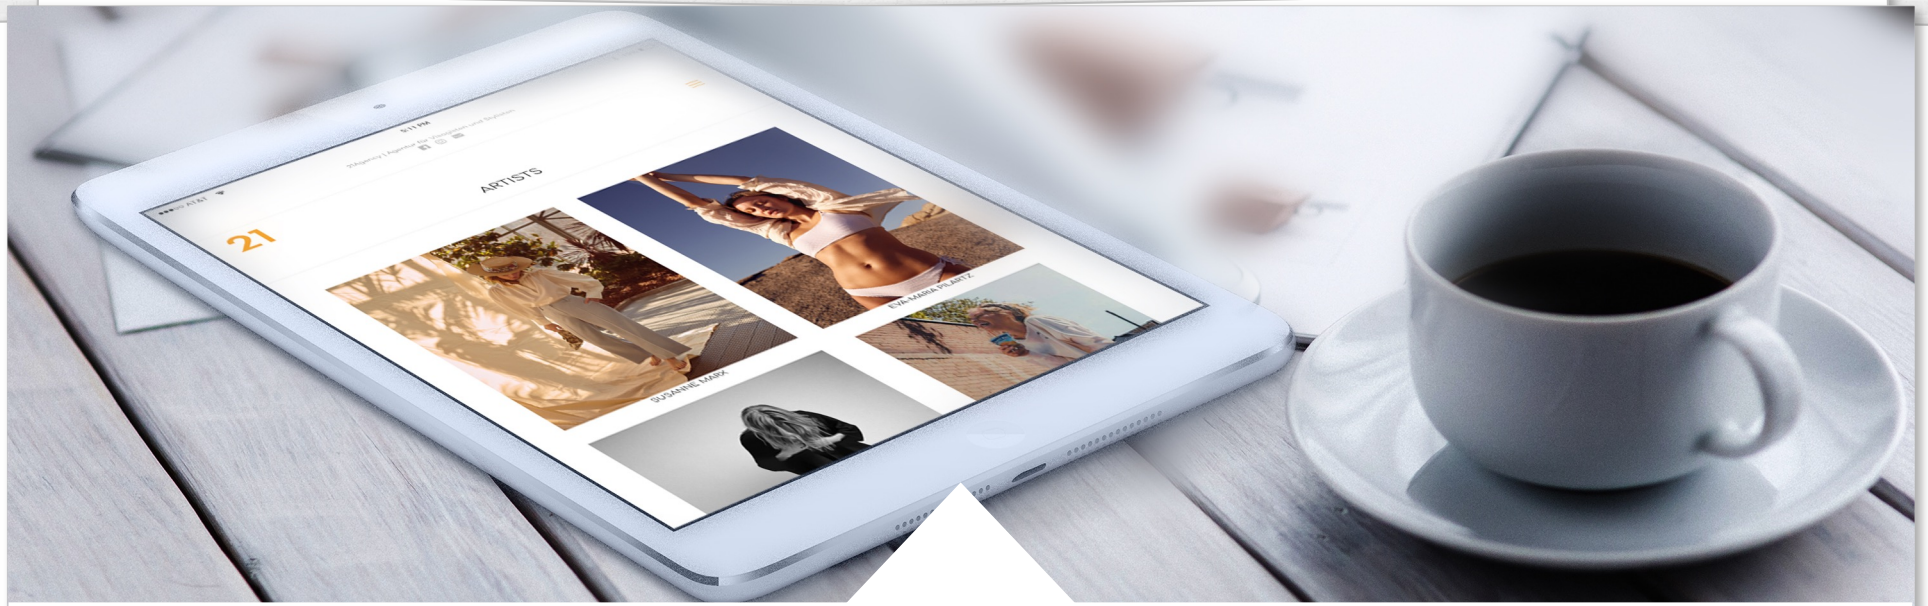

Creating a make up is like painting a picture. Simone's faithful texture, professional skill and imagination transforms her vision into a perfect beauty.
